CUSTOM ECOMMERCE DEVELOPMENT

# EMAIL SERVICES

## GOOGLE EMAIL SERVICES

Google Workspace is a suite of productivity tools designed for businesses and organizations. It includes Gmail along with applications like Google Drive, Google Docs, Google Sheets, Google Slides, and more. Google Workspace offers custom email addresses using the organization's domain name, enhanced security features, administrative controls, and collaborative capabilities.

## WEBMAIL SERVICES

Webmail services are email services that are accessed through a web browser, allowing users to send, receive, and manage emails online. These services are hosted on remote servers, and users can access their email accounts from any device with internet access.

## MAIL SERVICES TYPICALLY OFFER FEATURES SUCH AS

**ACCESS ANYWHERE:** Users can access their emails from any device with an internet connection and a web browser, making it convenient for people on the go.

**STORAGE:** Web Mail services often provide generous storage space for emails and attachments, allowing users to store large amounts of data in their email accounts.

**INTEGRATION:** Many web-based email services integrate with other online tools and services, such as cloud storage platforms, calendar apps, and productivity suites, enhancing users' productivity and efficiency.

**SECURITY:** Web Mail services implement security measures to protect users' email accounts and data, including encryption, spam filtering, and two-factor authentication.
